

IV International Symposium on Animal Biology of Reproduction (ISABR 2012)

Focus: Environment and Reproduction

October 17th 20th, 2012, Campinas, SP, Brazil

Oral Presentations

October 18, 2012 – Thursday -

16:00 to 17:00: Oral presentations - Session I (Papers 1-4)

- *Bovine embryos cultured in vitro in the presence of antioxidants: implications for blastocysts development quality and cryotolerance* - Rocha NAS, Leão BCS, Nogueira É, Mingoti GZ.
- *Heat shock protein 70 messenger rna is present in ejaculated sperm from hairy rams* - Lima-Souza A, Souza CEA, Costa JH, Moura AAA.
- *Effect of nitregic system on the in vitro culture of bovine embryos* - Santana PPB, Costa NN, Silva TV, Silva BB, Araújo CLA, Cordeiro MS, Santos SSD, Ohashi OM, Miranda MS.
- *Evaluation of the establishment of full spermatogenesis from testis tissue and testis cell suspensions from the Collared peccary (Tayassu tajacu) ectopically xenografted in immunodeficient mice* - Campos-Junior PHA, Costa GMJ, Lacerda SMSN, Avelar GF, Guimarães DAA, Kahwage PR, França LR.

October 19, 2012 - Friday

10:30 to 11:30: Oral presentations - Session II (Papers 5-8)

- *The periovulatory endocrine milieu alters the expression of immune response-related genes in bovine endometrium on day 7 post-estrus* - Mesquita FS, Binelli M.
- *Fecal sex steroids in rats exposed to Di(2-ethylhexyl) phthalate (DEHP): a longitudinal noninvasive approach to monitor hormonal status in experimental studies* - Clemente TC, Godói KEP, Pinto LA, Nihi F, Gomes C, Spencoski KM, Meyer KB, Martino-Andrade AJ, Morais RN.
- *Regulation of fibroblast growth factor 18 (FGF18) and its effect on bovine granulosa cell viability* - Portela VM, Zamberlam GO, Zuelow S, Price CA.
- *Evaluation of equine spermatogonial stem cell viability after cryopreservation* - Costa GMJ, Avelar GF, Lacerda SMSN, Campos-Júnior PHA, Rezende-Neto JV, Martins FGP, França LR.
